A MESSAGE FROM THE PRESIDENT

Chen Moore employees have been moving and shaking during the first half of 2011! We participated in the Corporate Run for the second time (below); the First Annual It's My Heart South Florida Chapter Congenital Heart Defect Awareness Fun Walk/Run (page 2); and the Walk for the Animals (page 3). We also hired two new team members (page 4)! In addition, one of our senior engineers was awarded the Florida Engineering Society Broward Branch's Young Engineer of the Year (page 3); our Community Service Committee organized another clothing drive (page 3); and four of our employees participated in the 2011 ASCE Southeastern Student Conference (page 3).

Besides all of the great work that the employees of Chen Moore have done, we're also making changes at a

management level to increase our involvement in our core markets. As you can see on page 4, we've relocated two offices in South Florida to better serve our clients in the area (and to ensure that all of our South Florida offices can be reached via mass transit). We've also opened two offices in Community Redevelopment Agencies (CRAs) in the Cities of Gainesville and Stuart in recognition of those communities emphasizing redevelopment and innovation as the necessary steps to move forward into a happier and healthier future.

Sincerely,

Peter Moore, P.E., LEED® AP

CORPORATE RUN

The event was held at Tradewinds Park in Coconut Creek, Florida. Employees and their families walked to raise money for CHD research. CHDs are the #1 birth defect; about 1 out of every 100 babies born each year has some type of CHD. It's My Heart raised over \$30,000 to provide support, spread awareness, educate and advocate for those affected by Acquired and Congenital Heart Defects by creating alliances with fellow families, hospitals, support groups, and the community.
